

Hearing Aid Consultation

Consultation Date: 02-06-2026

Doctor: James Hargreaves

Audiologist: Daisy Song

Chart No.: P1-003

Patient Name: Emily Thompson

Ear Side: Both

Demo Model: ReSound OMNIA 9

Record Type: New Consultation

Back in today for her demo appointment. Fitted bilateral ReSound OMNIA 9 demo aids and set the gain to 80% in first-time user mode. Asked her to compare how things sounded with and without the aids. She picked up the difference straight away and commented that speech sounded a lot clearer. Had a chat about the adjustment period and let her know that sounds she has not been hearing for a while will start coming back, which can feel a bit overwhelming at first but is completely normal. She is taking the aids home over the weekend and coming back Monday (08-06-2026) to let us know how she got on. Her family were with her today and everyone seemed positive about moving forward.
